PROGRAM

INTERNATIONAL CONFERENCE

DIGITAL HEALTH BEYOND COVID-19 LESSONS LEARNED

AUGUST 29-30, 2022

AAU COPENHAGEN

novo nordisk fonden

Thank you to the Novo Nordisk Foundation for supporting the conference

August 26, 2022
1.0 Background

In 2016, the Transatlantic Telehealth Research Network (TTRN) published a vision paper on digital health entitled “Personalized Telehealth in the Future: A Global Research Agenda”. The aim of the paper was to develop a strong evidence base of successful, innovative digital health solutions that could lead to scalable and sustainable digital health programs. The coronavirus outbreak was first reported towards the end of 2019 and was soon declared a pandemic by the World Health Organization. Due to the unprecedented COVID-19 pandemic, treating patients remotely is no longer a matter of convenience. Remote treatment has become imperative for digital health stakeholders, organizations, and providers. There is a vital need to understand and provide care in a safe and secure manner. For digital health to be effective, it needs to become a routinely used part of our health system. This requires change in management practices and a redesigning of existing models of care. Two key questions emerge: What have we learned so far about implementing new digital health technologies? And what lessons can be learned that we can use to improve digital health care? In this light, the TTRN are issuing this call for an international conference, to be held in collaboration with the International Society of Telemedicine & eHealth at Aalborg University, the conference to be held in Copenhagen, August 29-30, 2022. The Novo Nordisk Foundation is supporting the conference, enabling us to invite distinguished scholars to hold keynote speeches and to award grants to younger researchers to participate in the conference. Hope to see you at the conference.

Target group

The target group of the conference are younger and senior researchers within the fields of healthcare and health management, healthcare professionals, and managers within the healthcare system, including private firms working within digital health throughout the world.

2.0 Aims of conference

- To present and share experiences on research on implementation of the newest digital health technologies and services in the healthcare sector during the COVID-19 pandemic;
- To identify, communicate and compare lessons learned on digital health beyond COVID-19;
- To identify knowledge gaps and challenges for further research within digital health beyond the pandemic;
- To identify potential opportunities for exchange of knowledge and research collaboration in the field of digital health;
- To provide younger researchers within digital health the opportunity to present their work to a broad range of international scholars and colleagues.
3.0 Organization of conference

Professor Birthe Dinesen from Aalborg University (AAU) is head of the conference that has an organizing and scientific committee. Members of the two committees are listed below.

Organizing committee

- Professor & Head of Research Kristian Kidholm, Center for Innovative Technologies (CIMT), Odense University Hospital, DK
- Director David Lindeman, CITRIS Health, UC Berkeley, USA
- Associate Director Gale Berkowitz, CITRIS Health, CITRIS, UC, Berkeley, CA, USA
- Director Frederic Lievens, International Society for Telemedicine & eHealth (ISfTeH), Brussels, Belgium
- Professor Birthe Dinesen, Laboratory for Welfare Technologies – Digital Health & Rehabilitation, Sport Sciences - Performance and Technology, Department of Health Science and Technology, AAU, DK

Scientific committee

- Professor & Head of Research Kristian Kidholm, CIMT, Odense University Hospital, DK
- Professor Lars Dittmann, Department of Photonics Engineering, Networks Technology and Service Platforms, Danish Technical University, DK
- Professor Heather Young, Betty Irene Moore Nursing school, UC Davis, CA, USA
- Associate Chief Nursing Officer Nancy Albert, PhD, CCNS, CHFN, CCRN, NE-BC, FAHA, FCCM, FHFSA, FAAN, Office of Nursing Research and Innovation, Cleveland Clinic Health System & Adjunct Professor AAU
- Associate Director Gale Berkowitz, CITRIS Health, UC, Berkeley, CA, USA
- Associate Professor, Helle Spindler, Department of Psychology and Behavioral Sciences, Aarhus University, DK
- Professor Birthe Dinesen, Laboratory for Welfare Technologies – Digital Health & Rehabilitation, Sport Sciences - Performance and Technology, Department of Health Science and Technology, AAU, DK

August 26, 2022
4. Proceedings
All abstracts and posters are published as iProceedings at the Journal of Medical Internet Research (JMIR).

Abstract with no scientific background are published in a PDF file accessible at the conference site: https://www.labwelfaretech.com/ttrn/cph2022/

5. Find your way around Aalborg University (Copenhagen Campus)
With the AAU Map app, you can easily find your way to seminar rooms, work spaces, canteens, libraries and other relevant locations at Aalborg University, Copenhagen Campus. The app makes it easy to navigate around AAU - simply use the search function and let the app guide you to an address or a specific room.

How does AAU map work?
AAU Map resembles other navigation apps via GPS. You can search for addresses or specific room numbers at AAU, and once you have entered a location, the route is shown on a map that guides you from your current position to your desired destination.

Download the AAU map app at the Apple App Store or Google Play. Read more here: https://www.en.its.aau.dk/app/aau-map/

6. Evaluation of the conference
After the conference, all participants will receive an online questionnaire for their evaluation of the conference.
PROGRAM

Venue: Building A, A.C. Meyers Vænge 15, Aalborg University, Copenhagen

Monday, August 29, 2022

Venue: Room 1.008, Building A

Chair: Birthe Dinesen, Professor & Head of Laboratory for Welfare Technologies – Digital Health & Rehabilitation, Sport Sciences - Performance and Technology, Department of Health Science and Technology, Aalborg University (AAU), Denmark (DK)

8.00 Registration, coffee & tea
8.30 Welcome by Birthe Dinesen, AAU
8.40 Digital Health in the future, opening remarks by Lars Hvilsted Rasmussen, Dean, The Faculty of Medicine, AAU, DK
8.50 Keynote 1: Structurally embedding and implementing digital health into current health systems, by Frederic Lievens, Vice Executive Director, International Society for Telemedicine & eHealth (ISfTcH), Belgium
9.05 Is the Covid-19 pandemic a game changer for use of digital health? by Egon Toft, Head of Research, Aalborg University Hospital, DK
9.15 Break

</table>
10.50 Break

Venue: Room 1.008, Building A

11.00 Keynote 2: Promoting healthy aging in a digital world by Heather Young, Professor, Dean Emerita and National Director for the Betty Irene Moore Fellowship Program for Nurse Leaders and Innovators, University of California, Davis Health, CA, USA

11.30 Keynote 3: Digital health for vulnerable populations: From co-design to scaling and replication, by Gale Berkowitz, Associate Director CITRIS Health, CITRIS, University of California, Berkeley, CA, USA

12.00-12.40 Lunch & networking
12.40 Poster sessions. Venue: Rotunden

Chair: Kristian Kidholm, Professor and Head of Research, CIMT, Odense University Hospital, DK

Posters will be available in paper form at the conference. Each presenter will have three minutes for presentation and two minutes for Q & A. Here are the posters for presentation:

- Design and development of an e-learning patient education program for self-management support in patients with rheumatoid arthritis by Line Raunsbæk Knudsen RN, MCN, PhD student, Department of Rheumatology, Aarhus University Hospital & Department of Clinical Medicine, Aarhus University, DK
- Concurrent validity of linear accelerations measured by a low sampling frequency accelerometer in elderly patients with knee osteoarthritis by Arash Ghaffari, MD, PhD student, Interdisciplinary Orthopaedics, Aalborg University Hospital, Aalborg, DK
- Video consultations in primary care outside office hours by Mette Amalie Nebsbjerg MD, PhD student, Research Unit of General Practice, Aarhus University, DK
- Technology-based innovative healthcare solutions for improving maternal and child health outcomes in LMICs: a systematic review and network meta-analysis by Md. Obaidur Rahman MSc, PhD, Department of Global Health Nursing, Graduate School of Nursing Science, St. Luke's International University, Tokyo & Center for Surveillance, Immunization, and Epidemiologic Research, National Institute of Infectious Diseases, Tokyo, Japan
- Musculoskeletal complaints in relation to physical activity and psychosocial aspects among university students. A prospective study investigating the COVID-19 lockdown by Mia Schmidt Nielsen, MSc Student, Sport Sciences – Performance and Technology, Department of Health Science and Technology, AAU, DK
- Deep learning algorithm identifies bleeding episodes in the electronic health record by Rasmus Søgaard Hansen, Md, PhD student, Department of Clinical Biochemistry, Odense University Hospital, Odense, DK

Venue: Room 1.008, Building A

13.20 Keynote 4: Telenursing and telemonitoring during and beyond the COVID-19 pandemic, by Tomoko Kamei, Professor, St. Luke's International University Graduate School of Nursing Science, Tokyo, Japan

14.00 Break

Venue: Room 1.008, Building A

10.40 Keynote 8: Global Digital health Innovation during COVID-19: Lessons from Lighthouse and ACTIVATE, by David Lindeman, Director Health, CITRIS, University of California, Berkeley, CA, USA

10.55 Tele-palliation - a new way forward for palliative care? by Jarl Voss Andersen Sigaard, consultant, PhD student, Hanne Aagaard Christensen, RN, Sanne Broch Skov, RN Palliative Team, Hospital Southwest Jutland, Esbjerg, DK

11.10 Keynote 9: Sundhed.dk and MyHealth during the corona storm by Morten Elbæk Petersen, CEO Sundhed.dk and Q &A

11.40-12.40 Lunch and networking
Make your choice and attend the poster session or the roundtable discussion, please see below.

12.40 Poster sessions: Venue: Rotunden

Chair: Kristian Kidholm, Professor & Head of Research CIMT, Odense University Hospital, DK

Posters will be available as hard copy at the conference. Each poster presenter will have 3 minutes for presentation and 2 minutes for Q & A. Here are the posters for presentation:

- **Home Based monitoring with Thermography for detection of postoperative infection** by Marie Fridberg, MD, PhD student, Interdisciplinary Orthopaedics, Orthopaedic Surgery Department, Aalborg University Hospital & Department of Clinical Medicine, AAU, DK
- **Identifying parental needs when caring for a child or adolescent with cancer: a participatory design study** by Camilla Littau Nielsen RN, MHS, PhD student, Hans Christian Andersen Children’s Hospital, Odense University Hospital, Odense & Department of Clinical Research, Health, Sciences, University of Southern Denmark, Odense, DK
- **Reliable IoT for Healthcare Technologies** by Kalpit Dilip Ballal, PhD student, Department of Electronics and Photonics Engineering, Technical University of Denmark & Laboratory for Welfare Technology – Digital Health & Rehabilitation, Sport Sciences - Performance and Technology, Department of Health Science and Technology, AAU, DK
- **The Heart Game: a new tool for digital patient education for patients with Heart Failure** by Lisbeth Gade Hamborg, MSc & Rikke Jankuhn Petersen, MSc, Laboratory for Welfare Technology- Digital Health & Rehabilitation, Sport Sciences -Performance and Technology, Department for Health Science and Technology, AAU, DK
- **Opportunities and limitations when using telepresence robots for primary school students with school absences by Lahila Fanta Diab**, Laboratory for Welfare Technology-Digital Health & Rehabilitation, Sport Sciences -Performance and Technology, Department for Health Science and Technology, AAU, DK
- **Concurrent validity of linear accelerations measured by a low sampling frequency accelerometer in elderly patients with knee osteoarthritis** by Arash Gaffari, Interdisciplinary Orthopaedics, Aalborg University Hospital, Aalborg, DK
12.40 Round table: The pandemic, digitalization, and equality for health

Venue: Room 1.001

Moderator: Nancy M. Albert, Associate Chief Nursing Officer-Research and Innovation, Cleveland Clinic, USA and Adjunct Professor at AAU, DK

- Heather Young, Professor, Dean Emerita and National Director for the Betty Irene Moore Fellowship Program for Nurse Leaders and Innovators, University of California, Davis Health, CA, USA
- Frederic Lievens, Vice Executive Director, International Society for Telemedicine & eHealth, Belgium
- Helle Spindler, Associate Professor, Department of Psychology and Behavioral Sciences, Aarhus University, DK
- Gale Berkowitz, Associate Director CITRIS Health, CITRIS, University of California, Berkeley, CA, USA
- Hiroyuk Daida, Professor, Dean, Faculty of Health Science, Juntendo University, Japan
- Egon Toft, Head of Research, Aalborg University Hospital, DK

13.40 Break

Venue: Room 1.008, Building A

14.00 Panel discussion: Digital Health on Prescription

Moderator: Andreas Pihl, MD, Roche Diagnostics A/S

- Jesper Grønbaek, Founder & CEO Health Tech Hub Copenhagen, DK
- Michael Hejmadi, Specialist Family Medicine, Cofounder CMO Fiona Locker. Writer of Last Doctor Standing. Innovator, DK
- Gunnar Gislason, Head of Research the Danish Heart Association, Clinical Professor in Cardiology, Copenhagen University Hospital Gentofte, DK

15.15 Reception and Networking

15.45 End of conference

August 26, 2022
Facts about the conference

Financial support for the conference has been provided by the Novo Nordisk Foundation.

Q&A
For questions about the conference please contact:

- Research Assistant Emma Thunbo Hansen, AAU, email: emmuth@hst.aau.dk & mobile +45 22340055
